

# FOR YOUR SAFETY

*we've taken the following steps:*

## LOBBY & FRONT COUNTER

Plexiglass shields have been installed between the member and the employee.

### SOCIAL DISTANCING

Markers have been placed on the floors and in front of seats indicating the safest distance between you and your fellow patrons.

### CONTACTLESS CHECK-IN

Please check in with your ID.

### PAYMENT

We encourage all members to use a credit card and may swipe credit cards themselves to avoid handling cash.

### SALES TABLETS

Staff will wipe down tablets between every use with antibacterial solution.

### STORE TOURS

For now, store tours may be suspended.

## PERSONAL PROTECTIVE EQUIPMENT

For your safety and the safety of our employees, where applicable, gloves and masks will be worn by employees.

## CLEANING

At Planet Tan, cleaning is job #1. We only use hospital grade sanitizers on all surfaces. These sanitizers have proven effective in killing COVID-19 Virus and over 100 other viruses and bacteria.

### TANNING ROOMS

After each use, a trained employee will apply sanitizer to the tanning bed or spray booth, seating, shelving and door handles. Once sanitized, the room will be sealed with tape marked "Sanitized." This is your assurance that your room is clean and sanitized to perfection.

### RESTROOMS

Restrooms are cleaned every 2 hours — thoroughly sanitized with our hospital grade sanitizer.

**If you have any concerns about the cleaning and protective standards at this location, please ask to speak to a member of our management team or visit [planettan.com/customer-support](https://planettan.com/customer-support).**
